Why Am I Getting These #$%* Ads?

Have You Ever Wondered Why You Are Served Ads?

My Wife Is Always Looking For Our Next Vacation!

Well Yesterday I Bought New Tools Online

Commercial in Confidence

Agenda

I. To support WIOA Programs, is advertising allowable?
II. What is Programmatic Advertising?
III. How does it work?
IV. How has been successful with CA EDD as well as CA DIR

Commercial in Confidence

Migrant Seasonal Farmworker Outreach

"We don't have to reach them where they are"

- 2-week campaign starting November 17, 2025
- 9 counties were targeted
- Focus on mobiles and tablets

- Summary of Results

Imps	Clicks	Click rate	Cost
790,780	996	0.13%	$12,883.22

- **How did we do it?**

Commercial in Confidence

Advertising is an allowable outreach cost for state and local workforce officials

2 CFR 200.421

Uniform Guidance cost principle making advertising allowable for program outreach

TEGL 11-25

ETA guidance directing agencies and boards to expand outreach efforts

20 CFR 683.200

Applies the Uniform Guidance to WIOA title I and Wagner-Peyser funds

- ETA issued **TEGL 11-25 on May 19, 2026**, rescinding TEGL 03-23, to clarify allowable outreach uses of WIOA, AEFLA, and Perkins V grant funds
- Federal workforce funds may pay for reasonable outreach and marketing; allowable media include newspapers, radio and television, direct mail, exhibits, and electronic transmittals
- Advertising is allowable only when solely for program outreach, such as recruiting participants, employer engagement, or other purposes necessary to meet award requirements
- Costs must be reasonable and allocable, tied to program objectives, and materials must meet Section 508 and WIOA sec. 188 accessibility

Commercial in Confidence

Allowable outreach spending, and what stays off limits

Paid media

Radio, TV, print, transit, search and social ads **recruiting participants and employers**

Presence

Job fairs, community events, exhibits and booths that **reach underserved workers**

Materials

Flyers, direct mail, videos, websites and translated

- **Not allowable**: general image-building or public relations that promotes the agency rather than the program
- **Not allowable**: promotional items, giveaways, memorabilia, entertainment, and costs of selling or marketing other products or services
- **Not allowable**: costs that are unreasonable, unallocable, or unsupported by a documented link to program objectives and performance
- Keep an outreach plan, procurement documentation, and cost allocation records to show each expense meets the standard

Commercial in Confidence

Technically, we are already, sort of, doing it..

However, with social media outlets such as Facebook, X, and LinkedIn we are only reaching ***who we know!***

How can we expand our reach outside of social media channels?

Commercial in Confidence

What is Programmatic Advertising?

- Programmatic advertising is the real-time buying and selling of ad inventory through an automated bidding system on millions of websites & apps.
- Programmatic advertising enables brands, ad agencies, or **Gov Agencies**, to purchase ad impressions on publisher sites or apps through a sophisticated ecosystem.
- Programmatic advertising includes ad slots for online, digital out-of-home (DOOH), streaming, TV, video and voice ads.

dun & bradstreet

How it works: Programmatic Display

Allowable when solely for program outreach under 2 CFR 200.421 and TEGL 11-25

1. Audience

Define segments of job seekers and employers by geography, industry, demographics, and intent signals

2. Bidding

Software buys display space across websites, apps, and streaming the moment those users appear

3. Creative

Banner and video ads tailored by segment, translated as needed

4. Pacing

Budget limits and frequency caps control total spend and how often a person sees the message

5. Landing

Clicks route to an American Job Center page or intake form designed to convert interest into action

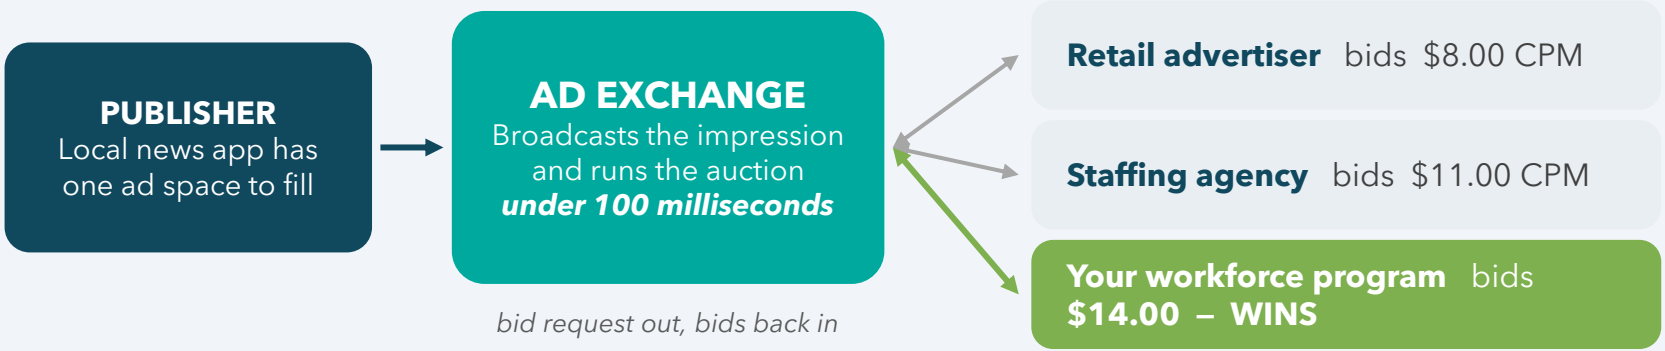

6. Reporting

Impressions, clicks, applications, and enrollments, documented for the grant file

Commercial in Confidence

Inside the auction: how one ad space gets sold

bid request out, bids back in

The winning ad renders before the page finishes loading.
The winner pays just above the runner-up, not the full bid – about $11.01, not $14.00.

Bid amounts are illustrative. CPM = cost per thousand impressions.

dun & bradstreet

Where the ads show up

Where job seekers and employers see the ads

	PLACEMENT*	EXAMPLE ENVIRONMENTS	WHY IT MATTERS
Apps and Sites	Local news and weather	Station sites and weather apps	Trusted daily habit
	Social and video feeds	In-feed and in-stream units	High mobile reach
	Streaming audio	Music and podcast apps	Reaches commuters
	Mobile games and utilities	Puzzle, sports, coupon apps	Broad, low-cost reach
Devices and Moments	Connected TV	Free ad-supported streaming	Household-level reach
	Job and career sites	Listings and resume pages	Highly relevant reach
	Retail and classifieds	Shopping and marketplace	Catches active intent
	Business and trade media	Industry news for employers	Reaches HR buyers

*Placements are limited to approved, brand-safe inventory in the service area.
**Environments are vetted for program outreach under 2 CFR 200.421.

dun & bradstreet

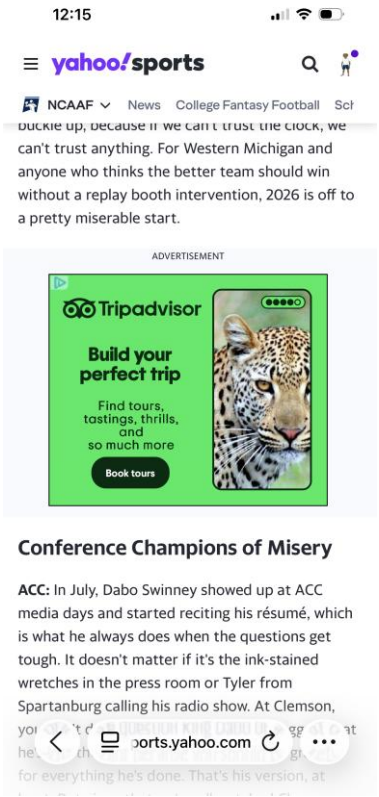

Cookies, IPs, and device IDs

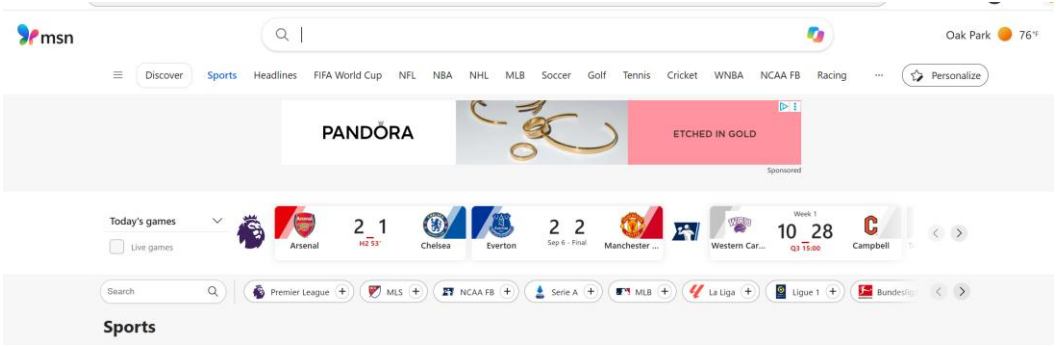

How a device is recognized, without a name attached

	IDENTIFIER*	WHAT IT IS	WHAT IT SUPPORTS
On the Device	Cookie	Small file stored by a browser	Frequency caps, repeat visits
On the Device	Mobile ad ID	Resettable ID in iOS and Android	App and in-game delivery
On the Device	Connected TV ID	ID inside the streaming device	Household-level reach
On the Device	Browser session ID	Temporary, expires with the visit	Delivery when cookies are off
On the Network	IP address	Numeric address of the connection	Geography by region or city
On the Network	**Household IP**	**Shared by devices on one router**	**Links phone, laptop, and TV**
On the Network	Hashed email	Irreversible code, not the address	Match to first-party lists
On the Network	Device location	App-permitted, opt-in signal	Radius around a job center

*Identifiers are pseudonymous; none carries a name or Social Security number.
**Use follows platform consent controls and state privacy law.

Household IP: Why am I getting certain ads?

A Household ID is a unique identifier used to group individuals who are believed to live at the same residential address into a single household unit. It is commonly used for online marketing.

While I am online, I will receive advertisements that my family members might be more interested in than me!

1st Party & 3rd Party Data

Target Audiences

Commercial in Confidence

First-party data is foundational, but on its own, it can lack the depth needed for advanced targeting, segmentation, and personalization – **It is people you already know**

Commercial in Confidence

First-party data: the audience you already have

Records your agency collected directly from people who engaged with your programs. Nothing purchased, nothing borrowed from a third party.

WHAT YOU ALREADY HAVE

- Intake and American Job Center visit records
- UI claimant contact information
- Workshop and hiring event signups
- Newsletter, text, and job-board activity

HOW IT BECOMES AN AUDIENCE

- Emails and phones are hashed, then matched to devices
- Grouped into segments such as dislocated worker or youth
- Loaded into the buying platform as a targetable list

WHERE IT RUNS OUT

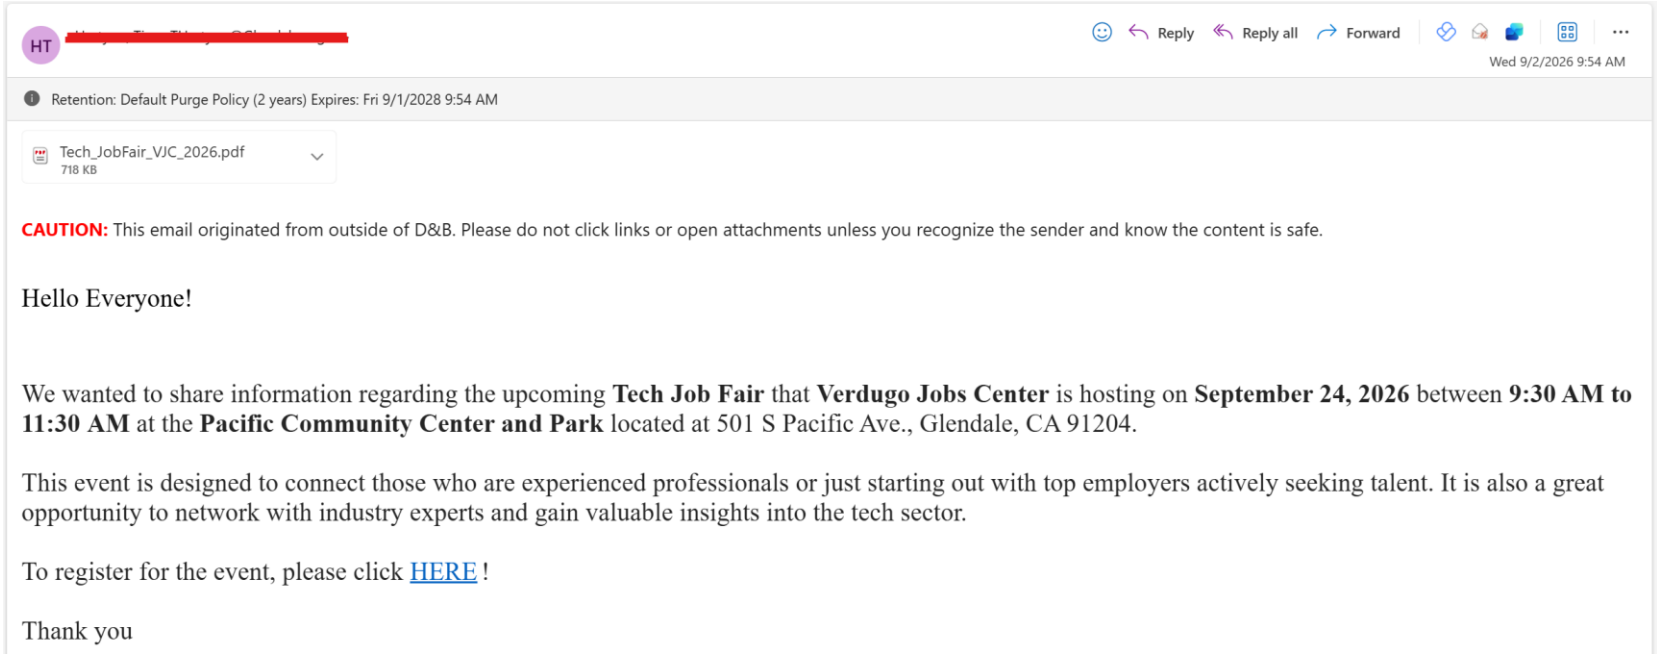

- Only reaches people you have already met
- Misses job seekers who never walked in
- Match rates drop as records age
- **The person isn't your target**

First-party data is your highest-performing audience and your smallest one.
It sets the baseline; third-party data is what extends that reach to people you have not met yet.

Use only records collected with appropriate notice and consent; identifiers are hashed before any match.

Commercial in Confidence

Is First Party Information all you need to market your programs?

Commercial in Confidence

If we are trying to reach knew audiences, access to 3rd Party Data is needed – Access to people's devices (masked)

We want to invite new employers and job seekers to participate in upcoming job fair

To do this, we need access to 3rd party audiences of potential job seekers and HR personas at companies in Glendale

Commercial in Confidence

Third-party audiences: consumers and businesses

250 M

CONSUMER AUDIENCES

250 million consumer contacts, reachable at the person and household level

- Age and life stage
- Household income
- Visits Online Job Boards
- Commute and geography
- Shopping and intent
- Device and app use

136 M

BUSINESS AUDIENCES

136 million professional contacts across 600 million business records

- Industry and sector
- Company size
- Revenue band
- Job function and title
- Locations and sites
- Hiring signals

83 million linked contacts connect the two sides.

The same person can be reached as a job seeker at home and as a decision maker at work.

Counts reflect Dun & Bradstreet data coverage. Third-party segments are pseudonymous and used only for allowable program outreach.

SB-617 Awareness Campaign Overview

Campaign

CA Senate Bill 617 became effective Jan 1.

Campaign objective: Raise awareness among California employers about Senate Bill 617, which expanded WARN notice requirements, including enhanced disclosures on support services (e.g., workforce development boards, CalFresh).

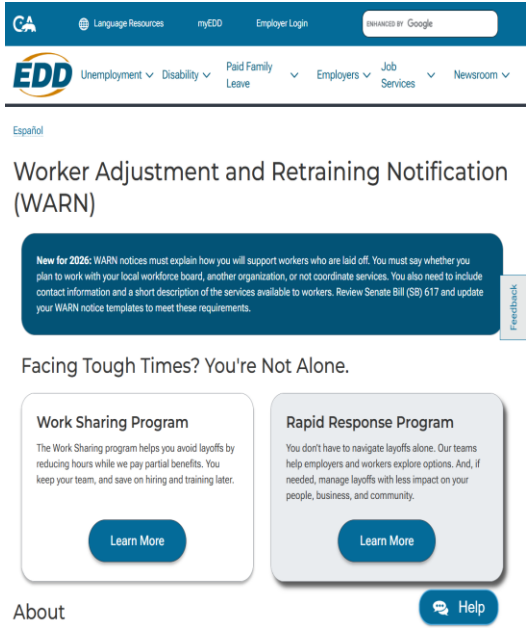

Long-term goal: Proactive employer compliance and earlier engagement, before layoffs actually occur.

Target

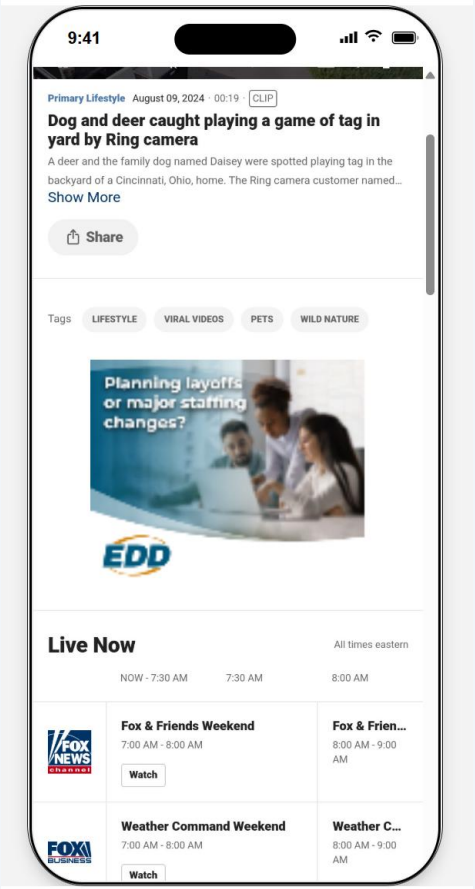

Employer Audiences

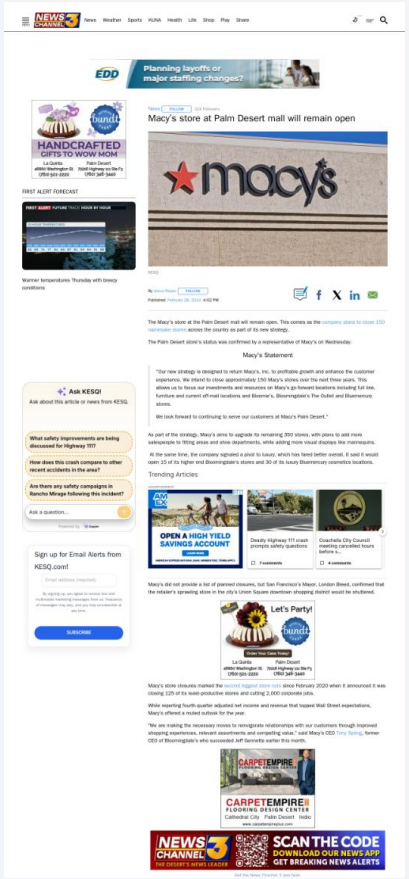

- Employees > 20
- Financial Stress
  Med or High Risk
- Executive & VP Level
  Admin, HR, Legal, CFO
- Entire State of CA

Action

Commercial in Confidence

Results

- Impressions: 2,585,041
- **CTR: 0.21%**
- CPM: $19.34
- CPC: $9.14

- Expanding the audience mid-campaign increased the reach and improved the click rate from 0.17% to 0.21%. This is excellent.
- Number of clicks generated : **5,468** !

Workshare Campaign May - June 2026

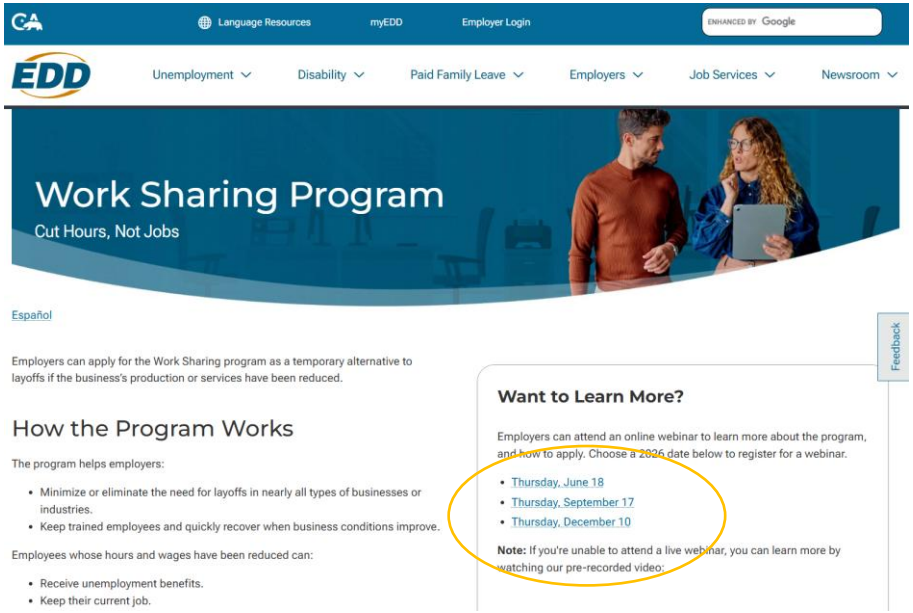

- Webinars for employers to learn about the program
- I learned about because I got an email (from CA Hispanic Chamber – 1st Party)
- Piggyback off the SB 617 Campaign

  Map Quest App

  Mobile App

  Sports Page

- $17,000 with 1M Impressions
- CTR strong .24%, Viewability Rate 80%, and Generated **2,568 Clicks!**

Commercial in Confidence

Another Target Method is GeoFencing

Retailers send promotional discount alerts or coupons when a shopper walks near a physical store. For Rapid Response, GeoFence around the factory to get displaced workers to the local job center?

DIR EST. 1927 State of California Department of Industrial Relations

Objective: Raise awareness and empower all temporary World Cup workers at SoFi and Levi Stadiums to understand and exercise their workplace safety, health and wage rights.

Target Audience: employers and workers physically located in or around the SoFi and Levi stadiums (using geofencing), for both ENG and SPA audiences. Additional minimum **Household Income** criteria was added during the matches.

World Cup Temporary Workers

dun & bradstreet

What Are Your Next Campaigns?

Segments a workforce board can target with display

	SEGMENT*	TARGETING SIGNALS	WHY IT MATTERS
Job Seekers	UI claimants and unemployed	Geography, life stage, income	Core adult population
	Dislocated workers	Industry signals near layoffs	Rapid response
	Youth and career changers	Age, education, training intent	Program enrollment
	Underserved populations	Neighborhood and language	Affirmative outreach**
Employers	Hiring employers	Industry, size, location, growth	Generates job orders
	High Risk Employers	Financial Stress and Industry	Layoff Aversion
	Business Engagement	Employee count and revenue	Unaware of services
	HR decision makers	Job function and seniority	Reaches the buyer

Building an outreach plan that holds up to review

Define

Name the target populations and employers, and tie each activity to program objectives and performance indicators

Procure

Follow Uniform Guidance procurement rules when buying media, creative services, or event space

Document

Keep cost allocation records, invoices, and copies of materials in the grant file

- Review current outreach efforts against TEGL 11-25 and revise or develop written policies and procedures, as ETA directs
- Set a reasonable budget and allocate shared costs across the benefiting programs and funding streams
- Meet accessibility and equal opportunity requirements up front: 508-compliant materials, language access, and affirmative outreach under WIOA sec. 188
- Track results such as inquiries, applications, and enrollments to show the spending advanced program goals
